## Thin@ Product Activation Instructions

### **Restrictions of Thin@ applications running on Unregistered Thin@ Servers**

To assist you with transitioning your Clarion applications to Thin@, your applications will run for a maximum of 5 minutes on Unregistered Thin@ Servers. After that your session will be disconnected.

### **Thin@ Server Registration Process**

Each server on which you will deploy your Thin@ applications must be registered to become fully functional. In order to register a Thin@ Server you have to follow the steps of the Thin@ Server Registration Process.

1. [Buy](#) a Thin@ Server License
2. Visit the [Thin@ Server Activation](#) page (available from your account on our website)
3. After downloading and installing the Thin@ server side components on each server, open the **Thin@ NetManager** application which handles the registration process (must be installed on each server).
4. Follow the instructions below

Registration info

Name:

Serial:

Key:

Step 1 : Enter your name or the name of your company in this field.

Step 2 : Copy the Serial Number of your Thin@ Server and paste it on the Activation page on our website.

Step 3 : After obtaining a Unique Thin@ License Key from our website, copy-paste that key in this field and click OK.  
Your Thin@ Server is now registred and fully functional.
